# Double Stripping - The Process

---

**1**

**Apply DEC 21 and buff it for 10 minutes**

**2**

**Without removing the residues from DEC 21, apply the alkaline cleaner (Faber 30, Cottosolv, Decera P or Epoxy Residue Remover)**

**3**

**Buff for another 10 minutes**

**4**

**Vacuum up the residues and rinse**

## Question Time

---

**Thanks for your attention**

**Mr. Zain Fezi - GM**
